

Fire Departments & Plush Toys

The perfect solution to bring comfort in a time of crisis!

- ★ Fire departments use plush toys to give some comfort to children involved in a traumatic situation and many keep them in their fire trucks. These bring a smile to a kid's face and help them cope with what has happened. The plush animals help calm children and, in turn, that helps their parents relax.
- ★ Plush toys make great items for fundraisers - to raffle, for giveaways to donors or for sale at open houses to raise money. Fire departments also use them as part of their fire education programs.

Fire Departments & Golf

Firefighters love to play golf!
Charity golf tournaments are
a part of firefighter's culture.

★ A local charity golf tournament with over 100 firefighters wanted their tournament gifts to reflect their professional pride. What better way than a firefighter themed golf head cover to proudly display on their golf bags.
